Organise, coach & manage matchday in one place

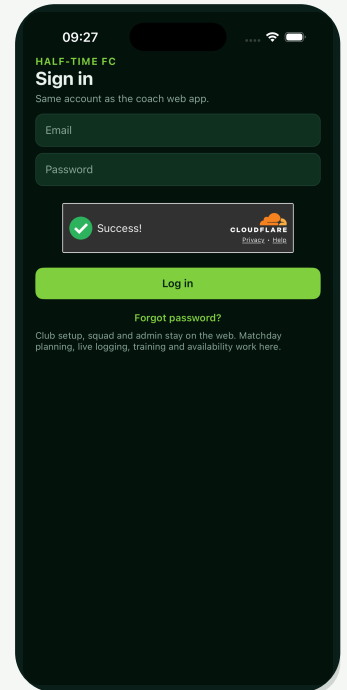

SET UP

Getting started

1 Sign in

Open the app and sign in with the email you were invited on. Set your password from the link in your welcome email first. Tick “Verify you are human”, then tap Log in.

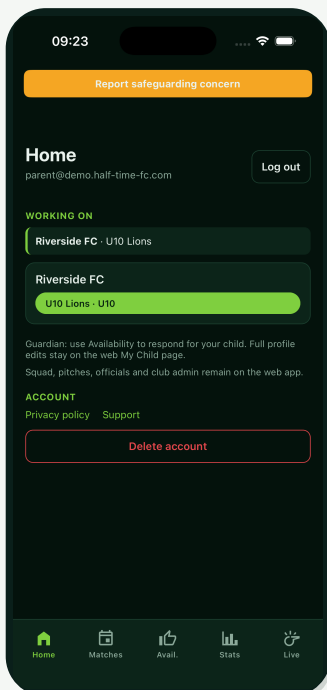

- New here? Tap the invite link in your email to create your password.
- Forgot it? Tap “Forgot password?” to get a reset link.
- After the first sign-in, Face ID keeps you logged in.

2 Your home screen

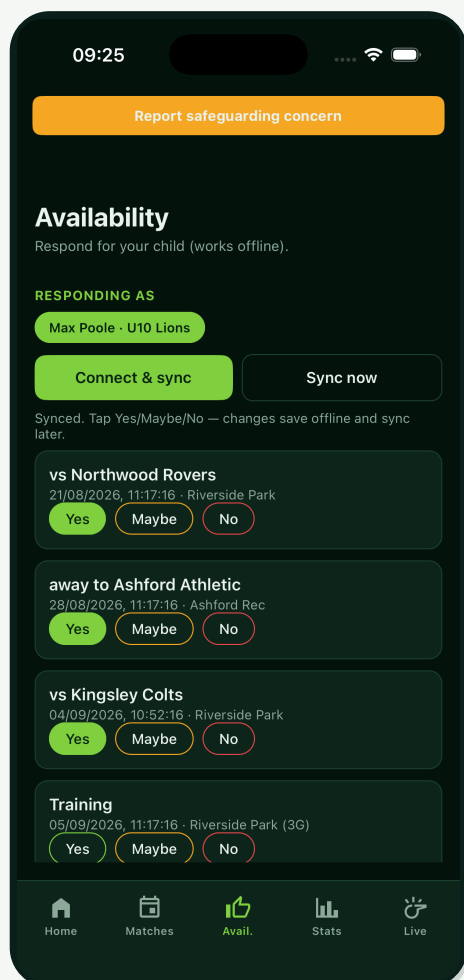

Home shows the club and team your child plays for. The five tabs along the bottom are everything you need: Home, Matches, Availability, Stats and Live.

- The amber button reports a safeguarding concern to the club welfare officer.
- Privacy policy, Support and Delete account live at the bottom.
- Your child's profile edits stay on the web 'My Child' page.

THE ONE TO REMEMBER

Say if your child can play

This is the most important thing you'll do in the app. Coaches pick squads and plan fair game-time from your replies — so a quick tap really helps.

- Check “Responding as” shows your child's name and team.
- For each match or training, tap Yes, Maybe or No.
- Your choice saves instantly — the pill turns solid.
- Changed plans? Just tap a different answer any time.
- It works offline; it syncs when you're back online.

What your answer means

Yes Counting on them

Maybe Not sure yet

No Can't make it

Tip

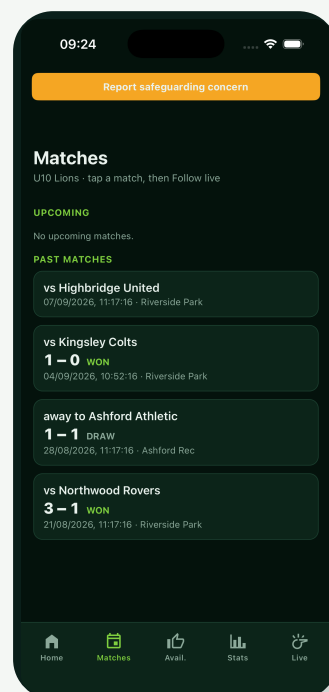

- You'll get a reminder the week of the match, and again the day before, until you've replied. One tap in the notification is enough.

Fixtures, results & live

3 Fixtures & results

The Matches tab lists upcoming games and past results. Final scores show under each match with a WON, DRAW or LOST tag, and a live game is flagged in red.

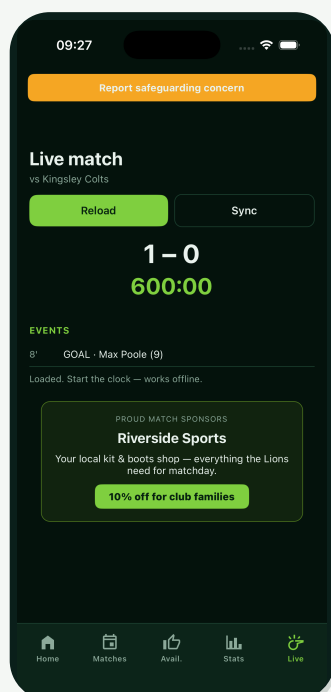

- Tap any match to see its details and report.
- Kick-off time and venue are shown on every card.
- “Away to” means your child's team is the visitor.

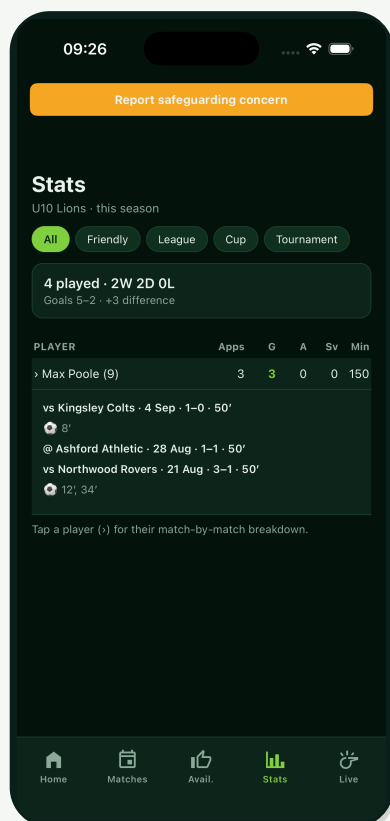

4 Follow the match live

Can't make it to the touchline? Open the Live tab (or tap a live match) to follow the score and goals as they happen — including who scored.

- The score and match clock update in real time.
- Goals and key moments appear under Events.
- You'll get a notification the moment the team goes live.

Stats, awards & help

5 Your child's stats & awards

The Stats tab shows the team's season and your child's own record — appearances, goals, assists, saves and minutes.

- Tap your child's name for a match-by-match breakdown.
- Goal and assist markers show when they made an impact.
- Any match awards they win appear here too.

STAYING SAFE & GETTING HELP

- Safeguarding: the amber 'Report safeguarding concern' button on Home goes straight to your club's welfare officer.
- Notifications: keep them on so you never miss an availability request, kick-off reminder, live game or match report.
- Privacy & support: find the Privacy policy and Support links at the bottom of Home. We handle children's data under UK GDPR.
- Your account: you can delete your account any time from Home → Delete account.
